

Hello,

I just wanted to say hello and let you know about something incredible that I have found.

As you know I am not a big fan of people drinking coffee but I know 30% of Americans will NEVER give up their coffee. I have found a company that has a coffee and tea that I can recommend.

This is an Enriched Gourmet Superfood coffee and tea. The tea is extra special because it is Rooibos and contains Ganoderma Lucidum. This is a red tea with twice the antioxidants of a green tea. The tea has NO caffeine and is a great product for those that need to relax and sleep. Many put one tea bag in ¾ of a gallon of water and let it steep for a few hours. No hot water needed. Of course it still makes a great hot tea.

This is not just another coffee company that put something in the coffee. This is a company that specifically markets Ganoderma Lucidum with a high technology extraction process. They provide over 80% of the worlds Ganoderma. They then put it in a brewed coffee that has been specially processed to remove the water. This creates a fresh brewed flavor coffee in convenient individual serve packages that will mix instantly in hot or cold water.

There is way more to tell you than I can begin to cover in a short letter but here are some bullet points.

- **Great Gourmet Flavor**
 - **No Bitter Acid Taste**
 - **Mild not Weak**
 - **Double Caffeine**
- **Superfood**
 - **100 Antioxidants**
 - **200 Phytonutrients**
- **Health Benefits – Ganoderma Lucidum**
 - **700+ Clinical Studies**
 - **Elixir of Immortality**
 - **Herb of Spiritual Potency**
